During the state on the federal mighway No. 17 me Bezirk Moedling, was dismantled and removed.

- 2. Since the early morning hours of 6 June 1955, the former Soviet traffic check point on the Voralpen federal highway at the Wachtberg, Gemeinde Behamberg, Bezirk Amstetten, has been re-occupied by Soviet soldiers. One soldier with rifle and fixed bayonet was standing guard and four to five soldiers were seen nearby. Persons and vehicles have so far not been checked. The guard merely asked several persons whether they had seen a Soviet soldier, presumably a deserter.
- 3. Soviet surveying teams have also been reported in the district of Urfahr, Upper Austria. They planted 10 meter high poles at Feldkirchen, Oesenbach, Muehldorf, Freudenstein, Bergheim, Weidet, Walding, St. Gotthard and Goldwoerth. Similar surveying poles were observed at St. Peter, St. Ulrich and Simaden in the Rohrbach district. The Soviet teams also checked and corrected photographic maps by inserting any new buildings in the districts named above. Other objects were photographed from several sides.
- 4. On 26 May 1955, a group of Soviet soldiers surveyed the area around the Mistelbach railroad station in Lower and the soldiers.
